East West Management/East West Vacations

East West and its affiliates have owned and managed short term vacation rentals starting in 1990. Unlike many traditional vacation property managers, we are not only managers but we have always owned many of our own condominiums, villas and townhomes.

So we approach each third party rental property as if it were our own- offering the same consistent property management approach, the same consistent marketing program, the same consistent attention to details and the same consistent customer service provided to all of the guests in all of our rental and vacation properties,

With rentals available in Florida, North Carolina, South Carolina, New York and Utah, we pride ourselves on what our clients have to say.

Here is a sampling of client comments on just two of our owned and managed properties over a two year period.

This condo is on the 9th floor. We were literally in the clouds and often while looking down, were able to see hawks. The condo was clean and nicely decorated. The bath towels were large and soft. The bed and bed linens were extremely comfortable. It is a great place to get away from it all. Within 30 minutes, travelers are able to be in Boone and/or Blowing Rock. It's a 10 minute drive in to Banner Elk and about a 15-20 minute drive to Beech Mountain. It is also in close proximity to Grandfather Mountain and the Blue Ridge Parkway. From booking to refunding my deposit and several emails in between, the owner was very responsive. coming back!

From our initial contact until we departed from the condo, the owner was responsive and polite with great attention to detail. When we arrived at the condo it was obvious that same attention to detail was present. The condo was immaculate, beautifully decorated yet still felt very homey. Every need seemed to be anticipated. The drawers and cabinets in the kitchen had pictures in them that showed what went where, which was greatly appreciated. It was a snowy weekend and we ended up staying in and cooking two nights. The kitchen was well stocked with everything we needed. The coffee maker was wonderful. I drink brewed coffee, my husband drinks k-cups and the coffeemaker did both. There were directions in the cabinet door for the coffeemaker, complete directions for the dishwasher and a reminder on the kitchen wall about checking out. All of these directions were great; however, the guest book in the living room was a treasure trove of information. The hall closet was well stocked with spa towels, lockers for the fitness room lockers and again great instructions. We enjoyed sitting at the counter by the window watching the skiers and taking in the beautiful scenery and sunsets. All in all, it was a wonderful weekend. Our every need seemed to have been anticipated. The condo was even more beautiful than the pictures showed. However, what you can't see in the pictures was just how clean this condo was. You also can't feel just how homey it feels. We would definitely stay here again.

NO where, we have been, have had as clean an environment, as thoughtfully appointed decor and kitchen conveniences, as carefully arranged electrical outlet access and electronic entertainment or as thorough and well explained notes and suggestions for our convenience. These owners truly care about the space they have chosen to share with guests. I felt like a friend through email exchanges and the genuine welcome felt throughout the experience. This condo is absolutely amazing and so are it's owners, Gary and Denise. They were quick to answer questions and so easy to work with-they emailed back promptly and really cared about making our stay super special. The guest book (created by Gary and Denise) that is available in the condo gives wonderful information about the area, explains how to use the Tvs/remotes, and describes check-out procedures. This condo was spotlessly clean and fully supplied from dishes and cookware, to fluffy towels and natural handmade soaps, coffee maker with coffee and even creamer, cleaning supplies, garbage bags and the list goes on! We have never stayed at a place more adequately stocked. The condo is tastefully decorated and has way too many special details to mention. I fell in love with the lamp in the master bedroom. It lights up in the bottom like a tree...you just have to see it! Super cool. The pictures on the website from the inside of the condo are on point but there is no way to fully describe the view from the balcony. It is absolutely spectacular. The shuttle was not an issue for us at all. Every time we left the condo, we called the front desk upon walking out of the condo door and the shuttle was downstairs waiting by the time we got down. The shuttle was quick to retrieve us from the parking lot when we returned from our adventures as well. The front desk staff were available to answer questions and guide us on things to do in the area. Overall, this was a top-notch vacation site! Thanks to for sharing this little bit of heaven with us. We will definitely be back! try to stay here again in the future.

Excellent 2-bedroom condo in the heart of North Carolina High Country! - ★★★★★

This condo on the 9th floor of a 10 story tower at the top of Sugar Mountain in far western North Carolina, is a wonderful place to get away for a relaxing time in a resort setting. Sugartop condos is a facility with 320 units...and all the amenities that one could wish for including an indoor heated swimming pool, hot tub, sauna and exercise facilities. This condo unit faces west and overlooks both the mountains and the Beech Mountain ski facility. The condo unit itself is a split-plan 2-bedroom, 2-bath unit that is tastefully decorated and as clean and neat as could possibly be imagined. The owners have done everything possible to make one's stay easy and an unforgettable experience. Everything that one could possibly want has been provided. The stainless steel kitchen, with granite countertops, has every appliance and all the extras that one could want to find in a gourmet kitchen. The unit itself is equally well provisioned, from 3 smart TVs (living room and both bedrooms) to a comfy king size bed in the 'master' bedroom and twin beds in the guest bedroom. All towels and linens are provided and there's a washer and dryer in the unit to allow you to keep your own things clean while you're there. The views, both from inside the unit (with several windows facing west), and from the outside balcony, accessible from the slider in the living room, provide breathtaking views to be enjoyed. The "details" are what make this place special....every possible detail that you can imagine in a well equipped home, you'll find in this rental condo. That includes tasteful decorations and wall hangings as well as comfortable living room furniture. We'd give this unit nothing short of a 5-star rating. Our only concern is that once this place is discovered and enjoyed by others, I'm afraid that it will be fully booked and we'll not be able to return to it when next we need and want a getaway vacation!!

My friend and I thoroughly enjoyed our vacation on top of the mountain! (We are both widows and love traveling around our state.) This is truly one of the nicest places we have stayed. Thanks to vrbo we will likely never stay in another hotel. TVery tastefully decorated and really gave you that cozy mountain feeling. The gentlemen at the front desk were always helpful and friendly. At first I was worried because they said the main parking lot was full but it ended up being just fine because they have a van that picks you up wherever you park and brings you back and forth, even at night. (We were able to park closer the next day, so I think it was just a busy weekend.) My friend and I are pretty old so we didn't do a lot of activities other than shopping and dining out. We just liked the atmosphere, cooler weather and all the beautiful views everywhere we turned. We did drive along the Parkway one day, how pretty! We also saw Linville Falls from the Parkway Visitor Center. I wish we could have hiked down to the bottom but I'm afraid we would never make it back up! I could have stayed in this condo for weeks. It had everything we needed. We also did some cooking one night enjoyed the kitchen.

It seemed to have everything but the groceries. It all looked brand new. The beds were marvelous! The towels were so big and fluffy I think they could dry a whole family with just one! Even the soaps and shampoos were nice. Everything was definitely nicer than a hotel. If our husbands were still alive they would have probably taken advantage of the sauna and steam room down in the lobby. And the golf course at the bottom of the mountain. I could go on but the main thing is that we will be back, and maybe for longer now that we know how nice everything is. We recommend this condo apartment to anyone who loves the mountains and I don't think you could find a more comfortable and beautiful place. Views, views views!

I truly enjoyed my stay. The house was perfect. The cabin feel that I was getting from the moment I got to the location. I was able to see nothing but forest and mountains surrounding the house. Once I got inside it was everything I wanted for my perfect vacation stay, especially the high ceiling with the wood beams and a cozy fireplace ; It was spacious enough to fit my whole family; but also gave us so alone time when needed. It was nice to spend time on the porch that opens a view over a landscaped garden and a pool. Access to the lake was another great amenity.

Being in this place reminded me of when I would go to my grandparents for the winter. It had a view that was out of this world. Waking up every morning to see some form of an animal in the yard then see nothing but trees and mountains is amazing. It was cozy and comforting. I was able to get my privacy and relaxation while being surrounded by nothing but nature. I will make this a yearly thing. Highly recommend!

A wonderful setting both inside and out. Highly recommend for a couple looking for a great romantic getaway. The interior looks like a model featured in House Beautiful. Just warm and cozy feeling in every part of the home. Flowers in the backyard are beautiful. What a wonderful time at happy hour overlooking the great community lawn and picturesque lake. You really feel like its all your space but then you are only steps from the pool, gym and billiards room. The master bedroom has its own private lanai that you sit and hear the waterfall and creek just a stones throw away. The original painting over the inviting king size bed portrays one of the main buildings from the movie Dirty Dancing (remember Jennifer Grey and Patrick Swayze!) that was filmed at this breathtaking setting. The kitchen is spacious, open, with a nice breakfast bar. The living room is big and comfortable. The stone fireplace is right out of the west and would be perfect in the fall and winter season but didn't need in March. The master bath is good size with oversized tub and walk in shower. The amenities also include the resort dock, outdoor seating and barbecue grill. The location is also perfect. The Condo is only minutes from both Chimney Rock with great hiking, the Lake Lure beach and the historic Arcade building and Lake Lure Inn. Everything you need seems to be here. and the overall interior is in prestige condition. Can't wait to book it again.

I stayed at a Firefly Cove in Lake Lure in early March. It was the time when spring started to take its power. The birds were singing and the sun was shining welcoming for a nice afternoon jog by the lake. The community is perfectly nestled in between the picturesque mountain range, woods and a great peaceful lake. The air is so fresh and inviting to stay longer however I was limited in time so just took a short 2-day break to relax and unwind enjoying the natural environment. The unit I stayed at was on the ground floor to the right of the main entrance. Nicely furnished and very spacious, could probably accommodate up to a family of 4. The bed is so big and very comfortable. Great kitchen and a fireplace is great amenity to enjoy sipping hot chocolate topped with whipped cream ;) I wanna find time to come back next Christmas - place supposed to be lit up and ambience will be just gorgeous. Short drive to Asheville makes it a perfect weekend getaway! Highly recommend and looking forward to come back soon!

Wanted to share great memories of staying at Firefly Cove in Lake Lure, North Carolina. This is a place to experience for a private romantic getaway. Community offers numerous amenities with gym on the ground floor being one of the best. We enjoyed cool sunny days and walked a lot around the area. We even had a chance to meet the community dwellers ;) and they are all proud of living in such a peaceful place with such a great history. Not to mention that place is very well-known as a scene for Dirty Dancing movie. The condo is located on the ground floor and is very spacious. It has all the necessary items for either long or short-term stay. Chairs by the fireplace were my best spot in the house. Bed is extra-large and so comfortable!!! Having a bath tub in the unit is another big benefit. Owners take a good care of the property as everything feels very fresh and clean. Convenient location makes it a great spot as you can easily drive to Asheville and visit Biltmore Estate - the largest private residence in America, or just drive around to Greenville or Hendersonville to explore local culture. A short drive will take you to the National Park so if the weather is good enough, try hiking. There are lots of small souvenir shops don't forget to buy a handmade item to remember your trip to this scenic town of Lake Lure in the heart of Carolinas!

It was a great pleasure to experience the place like Firefly Cove in the town of Lake Lure. The community is set in the picturesque scenery surrounded by rich vegetation and overlooking the famous lake where the famous Dirty Dancing movie was shot years ago. The weather was quite cool when we arrived so we stayed indoors by the fireplace most of the time reading books. The unit itself is very nicely decorated, with stylish designer touch that you can see almost everywhere - from furniture to bedding. It was pleasant to soak in a bath tub in a cool rainy day after exercising in the gym located on the ground floor of the building. Environment is very pleasant, safe and sound. You get in through the gate which is unlocked by the security code.
